ETICA & POLITICA/ETHICS & POLITICS POSITION ON PUBLISHING ETHICS.

The Editors of Etica & Politica/Ethics & Politics have taken every possible measure to ensure the quality of the material here published and, in particular, they guarantee that peer review at their journal is fair, unbiased and timely, and that all papers have been reviewed by unprejudiced and qualified reviewers. The publication of an article through a peer-review process is intended as an essential feature of any serious scientific community. The decision to accept or reject a paper for publication is based on the paper's relevance, originality and clarity, the study's validity and its relevance to the mission of the journal. In order to guarantee the quality of the published papers, the Editors encourage reviewers to provide detailed comments to motivate their decisions. The comments will help the Editorial Board to decide the outcome of the paper, and will help to justify this decision to the author. If the paper is accepted with the request of revision, the comments should guide the author in making the

revisions for the final manuscript. All material submitted to the journal remains confidential while under review.

Once the author receives a positive answer, he/she should send the final version of the article since proofs will not be sent to him/her. *Etica & Politica/Ethics & Politics* will publish the paper within twelve months from the moment of the acceptance, and the author will be informed of the publication.

The journal is committed to such standards as originality in research papers, precise references in discussing other scholars' positions, avoiding plagiarism. E&P takes these standards extremely seriously, because we think that they embody scientific method and are the mark of real scholarly communication.

Since *Etica & Politica/ Ethics & Politics* is devoted solely to scientific and academic quality, the journal neither has any submission charges nor any article processing charges.

The following guidelines are based on existing Elsevier policies and COPE's Best Practice Guidelines for Journal Editors

1. PUBLICATION AND AUTHORSHIP

EUT (Edizioni Università di Trieste), is the publisher of the peer reviewed international journal *Etica & Politica/ Ethics & Politics*.

The publication of an article in a peer-reviewed journal is an essential step of a coherent and respected network of knowledge. It is a direct reflection of the quality of the work of the authors and the institutions that support them. Peer-reviewed articles support and embody the scientific method. It is therefore important to agree upon standards of expected ethical behaviour for all parties involved in the act of publishing: the author, the journal editor, the peer reviewer, the publisher.

Authors need to ensure that the submitted article is the work of the submitting author(s) and is not plagiarized, wholly or in part. They must also make sure that the submitted article is original, is not wholly or in part a re-publication of the author's earlier work, and contains no fraudulent data.

It is also their responsibility to check that all copyrighted material within the article has permission for publication and that material for which the author does not personally hold copyright is not reproduced without permission.

Finally, authors should ensure that the manuscript submitted is not currently being considered for publication elsewhere.

2. AUTHOR'S RESPONSIBILITIES

E t i c a & P o l i t i c a/*E t h i c s & P o l i t i c s* is a peer-reviewed journal, and Authors are obliged to participate in our double blind peer review process.

Authors must make sure that all and only the contributors to the article are listed as authors. Authors should also ensure that all authors provide retractions or corrections of mistakes.

3. PEER REVIEW AND REVIEWERS' RESPONSIBILITIES

Both the Referee and the Author remain anonymous throughout the “double blind” review process. Referees are selected according to their expertise in their particular fields.

Referees have a responsibility to be objective in their judgments; to have no conflict of interest with respect to the research, with respect to the authors and/or with respect to the research funders; to point out relevant published work which is not yet cited by the author(s); and to treat the reviewed articles confidentially.

4. EDITORIAL RESPONSIBILITIES

Editors hold full authority to reject/accept an article; to accept a paper only when reasonably certain; to promote publication of corrections or retractions when errors are found; to preserve anonymity of reviewers; and to have no conflict of interest with respect to articles they reject/accept. If an Editor feels that there is likely to be a perception of a conflict of interest in relation to their handling of a submission, they will declare it to the other Editors. The other Editors will select referees and make all decisions on the paper.

5. PUBLISHING ETHICS ISSUES

Members of the Editorial Board ensure the monitoring and safeguarding of the publishing ethics. This comprises the strict policy on plagiarism and fraudulent data, the strong commitment to publish corrections, clarifications, retractions and apologies when needed, and the strict preclusion of business needs from compromising intellectual and ethical standards.

Whenever it is recognized that a published paper contains a significant inaccuracy, misleading statement or distorted report, it will be corrected promptly. If, after an appropriate investigation, an item proves to be fraudulent,

it will be retracted. The retraction will be clearly identifiable to readers and indexing systems.

6. POLICY ON EDITORIAL NORMS AND STYLE

In accordance with the pluralist principle and the breadth of interests that characterize the editorial line of *Etica & Politica/Ethics & Politics*, the review leaves the contributors free to choose which style of quotation to adopt in the composition of their article. Of course, this style must conform to one of the two internationally recognized models in the area of scientific publications in the humanities, namely the Chicago A (equivalent to APA) or the Chicago B, both defined by *The Chicago Manual of Style*, 17th edition. Moreover, the reference to the complete source must contain all the information required by the ISO 690 standard, both if it is provided only in the final bibliography (Chicago A) and if it is provided in a note (Chicago B).
