ANNO ACCADEMICO 2007-2008

ACKNOWLEDGEMENTS

In the following lines I wish to express my gratitude for the generosity and valued opinion of the people that have assisted me during my PhD studies as well as the development of this thesis.

My deep gratitude and respect go to the lecturers of the University of Trieste near ISIG, all the other lecturers and the ISIG staff as well as my colleagues whose collaboration has been extensively valuable in these three years of study.

Difficult as it is to pick out names among the academic staff, my gratitude will go to Prof. Gasparini for the precious time and advice he has dedicated to me as a tutor for my thesis and Coordinator of the PhD studies. Special thanks will go to Prof. Pusucas as co-tutor of this thesis for our valuable collaboration related to global developments.

My gratitude and love go to my family that patiently supported me during my years of study and during the completion of this thesis.

During my educational, professional and social experience as well as my PhD studies I have had the privilege to know many colleagues and collaborators. I may not mention all their names here, however special thanks go to all of them for knowing them has been truly enriching.

Finally, I wish to express my gratitude for the Italian people as financial contributors, who gave us all, the precious opportunity to follow and educational path in the language of a people that has marked the western world culture as we know it and improve our own knowledge upon the treasures this civilization beholds.

TABLE OF CONTENTS

INTRODUCTION	1
1. OBJECT OF ANALYSIS AND RESEARCH QUESTIONS	1
2. METHODOLOGICAL APPROACH	3
3. THE FRAME OF THESIS.....	6
PART ONE	
I. CORRIDORS OF TRANSPORT AND EUROPEAN POLICY.....	8
I.1 THE THEORY AND CONCEPT	8
I.2 HISTORY AND EXPERIENCES.....	19
I.3 EUROPEAN POLICY ON TRANSPORT CORRIDORS.....	23
I.3.1 Europe towards a common transport and cohesion policy.....	24
I.3.2 Pan European Corridors and Areas.....	28
I.3.3 Trans European Networks of Transport (TEN-T).....	32
I.3.4 Putting people at the heart of transport activity.....	38
I.3.5 Cross Borders and Corridors of Transport.....	45
PART TWO	
II. BENEFITS AND IMPACTS OF TRANSPORT.....	48
II.1 WALKING LOCAL ACHIEVING GLOBAL	48
II.1.1 Mobility daily life transport.....	48
II.1.2 Social behaviour and transport	57
II.1.3 Life style and sustainable transport.....	60
II.1.4 Transport and social integration	64
II.2 SOCIAL IMPACTS.....	65
II.2.1 Safety impacts.....	65
II.2.2 Environmental impacts.....	66
II.2.3 Social fragmentally and inequity development.....	67
II.2.4 Spatial Planning and Land use.....	68
II.3 ECONOMIC BENEFITS.....	69
II.3.1 Global economy and transport.....	69
II.3.2 Direct users benefits.....	72
II.3.3 Direct economic benefit. Business and tourism.....	73
II.3.4 Indirect economic benefits. Remittances.....	76
II.4 ECONOMIC COSTS	77
II.4.1 Cost of construction, rehabilitation, travel.....	77
II.5 NATURAL CONSEQUENCES.....	78

II.5.1 Global warming.....	78
----------------------------	----

PART THREE

III. SUSTAINABLE DEVELOPMENT AND TRANSPORT.....81

III.1 SUSTAINABLE DEVELOPMENT CONCEPT.....	81
III.2 SUSTAINABLE TRANSPORT.....	82
III.3 TRANSPORT ENERGY AND CLIMATE CHANGE.....	88
III.3.1 Energy consumption.....	88
III.3.2 Transport a big energy consumer.....	89
III.3.3 Climate change as result of transport energy consumption.....	91
III.4 EU POLICY ON REDUCING GAS EMISSIONS.....	93
III.4.1 Legislation and regulations to reduce transport gas emission.....	93
III.4.2 International actions on climat change.....	102
III. 5 RENEWABLE ENERGIES.....	105
III.5.1 Energy alternative and options.....	105
III.5.2 Renewable energy and transport.....	106
III.5.3 Hydrogen, solar photovoltaic, biomass, geothermal.....	112
III.5.4 Renewable energy and market economy.....	114
III.6 TRAFIC CONTROL AND REGULATION SYSTEMS.....	118
III.6.1 Traffic quality and monitoring systems.....	118

PART FOUR

IV.THE POWER OF PARTNERSHIP ALONG TRANSNATIONAL CORRIDORS...123

IV. 1 WHY PARTNERSHIPS?.....	123
IV. 2 PARTNERSHIP COUNTRIES.....	124
IV.2.1 Direct partnership countries.....	124
IV.2.2 Indirect partners.....	125
IV.2.3 Geostrategic partner countries.....	126
IV.3 Private Public Partnerships.....	127
IV.3.1 Promoting alternative financial for transport.....	127
IV.3.2 Public Private Partnerships.....	136
IV.3.3 Pension investment funds and transport	142
IV.3.4 International Experience in PPP.....	147

PART FIVE

V. PANEUROPEAN TRANSPORT CORRIDOR EIGHT.....	156
V. I HISTORICAL INTRODUCTION.....	156
V.1.1 Corridor eight and early Balkans.....	161
V.1.2 The ancien “ Via Egnatia ”	162
V.1.3 Social interactions in early Balkans.....	163
V. 2 CORRIDOR EIGHT AFTER PRAGUE CONFERENCE OF MINISTERS TRANSPORT..	166
V.2.1 E.U enlargement and Corridor Eight.....	168
V.3. ALBANIA THE WESTERN GATE OF CORRIDOR	169
V.3.1 A favourable geo-historic position.....	169
V.3.2 Present situation of the transport modes and infrastructures.....	172
V.3.3 Population and demography.....	182
V.3.4 Employment.....	184
V.4. MACEDONIA (FYROM) A CANDIDATE COUNTRY	189
V.4.1 Country profile.....	189
V.4.2 Socio-economic profile of the country.....	190
V.4.3 Present situation of the road transport.....	191
V.4.4 Population and demography.....	196
V.4.5 Environmental issues.....	198
V.5 BULGARIA.....	200
V.5.1 Bulgaria an EU member state.....	200
V.5.2 Bulgaria the Eastern Gate of Corridor Eight.....	202
V.6 THE NETWORK OF PAN EUROPEAN CORRIDOORS AND AREAS.....	207
V.7 DATES ANALYSE	209

PART SIX

VI. CONCLUSIONS AND RECOMMENDATIONS.....	213
VI.1 ANALYSE OF POSITIVE AND NEGATIVE FACTORS	213
VI.2 CONCLUSIONS AND RECOMMENDATIONS	214
BIBLIOGRAPHY.....	217
ABBREVIATIONS.....	224
INDEX OF GRAPHICS.....	226
